

# Attachment Theory Informed Intervention Model

## AIM FOR THE HEART

**May 10th & 11th, 2018 • 9 a.m. to 4:30 p.m.**

This innovative and natural marriage of **The Healing Model of Intervention** and **Attachment Informed Family Therapy** is the next great leap forward in our battle against addiction.

The powerful synergy resulting from the combination of these two robust and effective therapeutic models has created an overwhelmingly powerful process that will save countless lives while simultaneously healing fractured families and empowering those families to more effectively recognize and deal with chemical abuse in future generations.

**Jim Thomas, LMFT**
